

Fundația Emanuel Betania in Teiuș

After 14 years of activity in Teiuș the challenge for 2017 is to re-invent ourselves. Our ideas have been so successful that other people have taken them up. Painting and Guitar clubs have been taken over by the Rotary Club in the Cultural Hall. The Town Hall has taken over Homework Club. Our accountant in Teiuș has stepped down, and a replacement has been appointed. Our current leaders - Ani & Goghy Melente - would like a sabbatical break, but will continue the work with disabled children, and have agreed to see through the building project in 2017.

In February I started to look for other organisations to run the weekly program of activities from the buildings we have sponsored over the years. **MW**

Christmas Program

We made about 100 presents from the materials that you sent us, and gave one to every child that we have worked with from the clubs and social work activities. We also had a big sort out of everything that we had in stock, and made big boxes of clothes, shoes, toys and food, to give to poor families identified in the social work program. You should have seen the big smile that we made on people's faces, because it is not so often that anyone visits the poor!

*We thank you for your support. **Ana Melente***
