

STOENEȘTI

“In August the children and teenagers enjoyed two weeks of camp, in tents in a nearby forest. They had fun, Bible lessons, songs, crafts, sketches, contests and games, and even washed the dishes after eating!

After that a team of young people from the United States came to Stoenești. They were involved in different works. With children, explaining to them the gospel through Bible lessons, songs and games. They participated in the distribution of New Testaments and Christian literature on the streets nearby. They were also involved in local service with very physical work (washing carpets and chopping wood). Then the parents joined their children and went on different local visits, giving some food to poor families from church.

*Please keep praying for us.” **George & Dana***

George and Dana are neighbours to the program we support in Berindei. In terms of our help they are the poor relations as we only give them what is left over, after the other projects have been supplied. Their requests are for:

- Camping equipment, including sleeping bags and sleeping mats.
- Tinned food (fish, beans etc)
- Oven cookware.
- Second hand shoes.

We hope to send some of this at the end of October. **Ed.**
